

1, Types of mediums ?

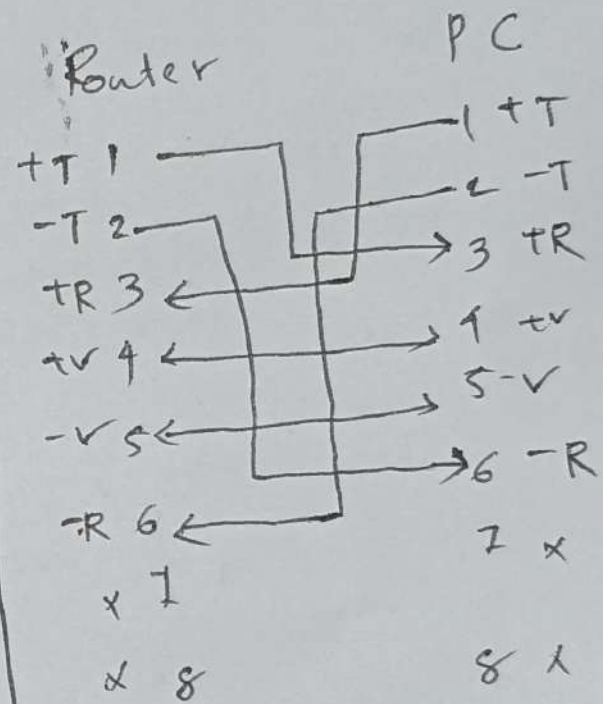

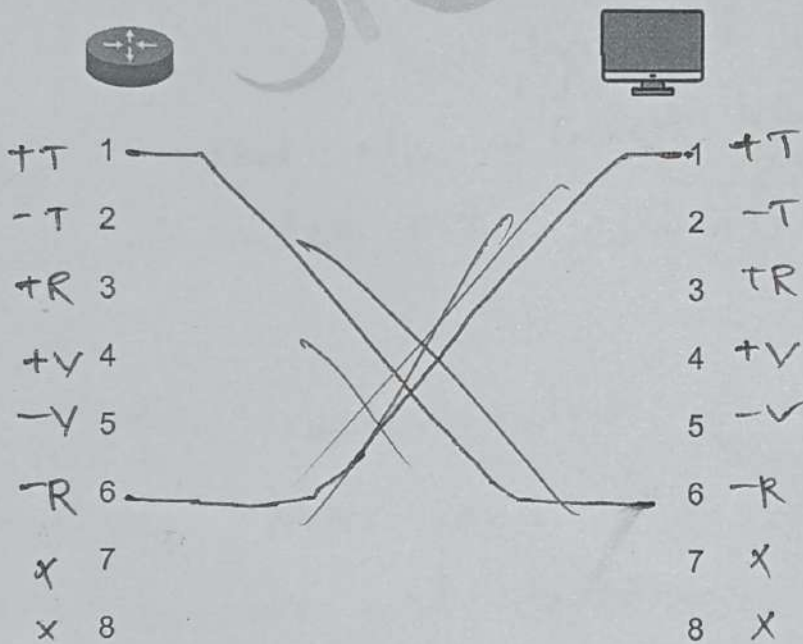

There is two types :

- 1 Wired - classified into two using type ie copper (utp), OFC
- 2 Wireless - wireless medium using to transmit RFs.

2, Write down switch 8-pins ?

- 1 +R
- 2 -R
- 3 +T
- 4 +V
- 5 -V
- 6 -T
- 7 X
- 8 X

3, Connect utp cable between two devices

Cross over

4, Explain AUTO MDIX ?

AUTO MDIX - It is a feature, that automatically detects the required type of connection in Ethernet port and become the type.

Ex: IF AUTO MDIX is on, we can use straight cable for cross over type.

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

There is two types of NICs

- 1) Wired Nic - Converts binary signal into electrical and vice versa.
- 2) wireless Nic - Converts binary signal into RFs and vice versa

Nic contain two types of Address, ie, MAC and IP, used to identify the location and device.
